EXAMINER'S AMENDMENT

An examiner's amendment to correct an obvious error appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In line 21 of page 5 of the specification, "cross" has been changed to - - top - -.

Claims 5-7 and 9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 5, the prior art of record fails to show a motion chair and tablet combination including a tablet connected to the frame and maintaining a fixed position unchanged by movement of the backrest or seat when moved between the upright and reclined positions, wherein the tablet is a substantially planar member and is movable between a stored position disposed in a substantially vertical plane on one side of the chair and an operative position wherein it is disposed substantially in a horizontal plane above the seat of the chair and further wherein the tablet when moved from the stored to the operative position passes through an intermediate position wherein it is displaced in the vertical plane approximately 90 degrees from the stored position and then pivoted

about a horizontal axis to the operative position into the substantially horizontal plane, in combination with other specifically claimed features.

Regarding claim 9, the prior art of record fails to show a combination chair and tablet including the rear legs having forward extensions providing a cantilevered support for the seat above the front legs and being flexible to enable the seat to move upwardly with the extensions to a reclined position, a backrest frame pivotally supported by the upper ends of the front legs and supporting the backrest, and a pivotal connection joining the front end of the backrest frame to the forward extensions of the rear legs for causing the seat to tilt upwardly when the backrest frame is deflected backward to a reclining position, in combination with other specifically claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
